ON/BEFORE THE DUE DATE, THE FOLLOWING MATERIALS MUST BE SUBMITTED TO THE REGISTRAR:

a) one bound copy of the thesis for each faculty reader.

b) a copy of the title page for the Commencement Program (separate, not attached to any other object).

Working papers, including original outlines, notes, rough drafts, etc., must be maintained and made available to your reader upon request. However, working papers do not need to be submitted to the Registrar.

WITHIN 48 HOURS OF THE DUE DATE:
Access the site Scholarship@Claremont at http://scholarship.claremont.edu and upload your thesis in an acceptable format. Your submission will be reviewed by the digital initiatives library staff and then posted to Scholarship@Claremont after the thesis grade has been recorded.

Notes about thesis upload:
When you submit your thesis to the site, your thesis will automatically be accessible to computers within the Claremont Colleges IP range. You may elect to allow public access as part of the submission process. Note that access restrictions can be changed from IP restricted to open access, but not from open access to IP restricted.

If your thesis contains sensitive data or patented material, you may request a delay, or embargo, in releasing your uploaded thesis. Students requesting embargo must still upload their thesis within 48 hours of submitting their hard copy thesis.

Students who wish not to upload their thesis to the digital archive may request a thesis upload exemption.

An electronic copy of the thesis must accompany any request for embargo or exemption. This copy will remain permanently in a secure area on the CMC network. Thesis embargo request forms and thesis upload exemption request forms are available in the Registrar’s Office or at http://www.cmc.edu/thesis/.

Theses uploaded to Scholarship@Claremont are permanent and will not be altered or removed except in cases of plagiarized content or scholarship of failing quality, and only at the discretion of the Dean of Faculty.
INSTRUCTIONS

At Claremont McKenna College, Senior Thesis is a general education requirement, to be completed within a student’s major. It is intended to be a serious exercise in the organization and presentation of written material. Students select their own topics, in consultation with their faculty reader. Students pursuing honors within their major(s) should consult their department chair(s) for guidelines pertinent to the senior thesis requirement. Students are responsible for determining their departmental requirements.

These instructions apply only to students writing a non-science thesis. Science majors must contact the Keck Science Department (www.kecksci.claremont.edu/Thesis) for thesis requirements.

The thesis is a research paper and students are responsible, with the advice of their reader, for the investigation of sources, the accumulation of data, the selection of pertinent material, and the preparation of the thesis in acceptable form. Students submit their topics for thesis, with designated reader approval, at pre-registration or registration. Forms are available in the Registrar’s Office and online. All CMC students must choose a faculty reader who teaches within their major. Only off-campus majors may have a single reader from off-campus. Students are welcome to have an additional reader, if appropriate.

Senior thesis may be a one or two semester project. Students doing a two-semester thesis must register each semester for a two-semester thesis, and must complete the two-semester option in consecutive semesters. Students scheduled to graduate or to leave CMC at the end of the fall semester may do a two-semester spring-fall thesis; all other students must select a one or two-semester thesis during their final year. The option originally chosen may be changed (from a one-semester to a two-semester thesis, or vice versa) no later than the end of the registration period (tenth day of the semester) of the semester in which students start work on thesis. Similarly, students may not change topics or readers after the tenth day of the semester in which they start their thesis.

The following rules will be strictly applied:

1) Theses must be original work for this course only.

2) A thesis may be an expansion of a previous term paper; if so, however, an explanation must be included with the Senior Thesis Topic Form and approval must have been given in advance by the Faculty Reader. Include the original paper as an appendix in the final submission and use the appropriate citations when you refer to it.

3) All theses are carefully checked for originality. Students found to have committed academic dishonesty on their theses are subject to disciplinary measures through the Academic Standards Committee. If the act of dishonesty is a second offense, students are also dismissed from CMC without the possibility of returning to earn a degree. You must learn the proper citation rules and scrupulously follow them. If you have questions about proper citation, make an appointment at The Center for Writing and Public Discourse.

4) A thesis failed for any reason cannot be made up during the same semester.

5) All students must submit one bound copy of the thesis for each faculty reader on the due date. Theses will be returned to the author after reading and grading. Students with more than one faculty reader must submit additional copies as needed. If departments require a copy of a thesis to determine honors in the major, students are responsible for submitting the extra copy to the department. Readers are required to return their copy of the thesis with the grade to the Registrar’s Office.
THESIS REQUIREMENTS

MANDATORY MEETING

A mandatory meeting will be held at the beginning of each semester during which the requirements and standards for the senior thesis will be explained. This is the only such meeting; therefore all questions should be raised at that time. It is each student’s responsibility to attend this meeting and to obtain the materials distributed at the meeting.

PROGRESS

Students must meet with their faculty reader on a regular basis throughout the semester(s). Progress, or lack thereof, will be indicated when low grades are due each semester. It is the responsibility of the student to find out what the expectations are of faculty readers and departments to avoid low grades. You should devise a schedule with your reader that specifies when outlines, bibliographies, drafts, etc. are due.

Students writing a two-semester thesis will be graded for the work completed at the end of the first semester. It is their responsibility to find out exactly what the reader wants turned in at the midpoint of each semester, as well as at the end of the first semester.

Here are some suggestions for your thesis progress:

► Bibliography by week 3
► Outline by week 4
► Literature Review by week 7
► Statement of Methodology by week 9
► 1st full draft by week 11
► 2nd full draft by week 12

LENGTH

There is no set length requirement for either a one-semester or a two-semester thesis. Students must work closely with their reader to determine the appropriate length. The average 1-semester thesis is approximately 50 pages, including notes, charts, and bibliography. Quality of organization and care in editing are more important than length.

FORMAT

Theses must be printed using either Times New Roman 12 point OR Courier New 10 point font. Be sure to include a blank sheet of paper between the title page and the table of contents.

The thesis will include:
1. binding – black back cover, tape binding, clear top cover. No spiral binding, unless the copy shop determines your document is too thick for tape binding.
2. title page (a sample is included in this syllabus)
3. table of contents
4. chaptering
5. documentation
6. bibliography

PLEASE NOTE:
Theses being considered for departmental honors may have additional requirements. You must consult your department for details.
WRITING ASSISTANCE

The Center for Writing and Public Discourse (Kravis Center, First Floor 101, x74142) can provide valuable assistance to thesis writers. Trained and experienced writing consultants can advise on all aspects of thesis preparation from developing a viable thesis statement to using Turabian, MLA and APA. Make an appointment to see a writing consultant early in the semester.

STYLE MANUALS

One of the following style manuals must be followed, as appropriate to the discipline of the thesis: (Please use the most recent edition).

1. Theses in psychology follow The Publication Manual of the American Psychological Association, with the addition of the standard Senior Thesis title page. Do margins according to PMAPA recommendations. Your thesis will have the required CMC Senior Thesis title page, a blank page, then the PMAPA title page.
2. Theses in mathematics follow the American Statistical Association manuscript format or, the American Mathematical Society format, or with the approval of the Mathematics Department and the Thesis Director, the style guide of another appropriate mathematics journal;
3. Theses in literature follow The MLA Handbook for Writers of Research Papers;
4. Theses in all other fields follow Kate L. Turabian, A Manual for Writers of Term Papers, Theses and Dissertations, (University of Chicago Press). Note the following modifications of Turabian: the rules for first reference to a work in a footnote apply to each chapter: that is, there must be a full bibliographic citation at the first reference to a work in each chapter, regardless of any prior reference in earlier chapters (see Turabian 8.12 and 8.22). In any case where other manuals are silent, consult Turabian.
5. The University of Michigan Documents Center/Citation Guides is an excellent on-line resource that has links to all of the formatting guides, including Turabian. It also has links to examples of how to cite electronic sources. It is available at http://www.lib.umich.edu Type in citation guides in the search box.
6. Case Citation Guide: a legal citation primer based on the seventeenth edition of The Bluebook: a Uniform System of Citation is available at http://www.law.cornell.edu/citation.

RETRIEVAL OF THESES

Theses may be picked up when grading is completed in January or May; because of limited storage space, theses will be discarded if not picked up by the end of the semester following the semester in which the thesis was completed. Theses are not mailed to students, unless students have made arrangements in advance with the Registrar's Office. All mailing expenses must be paid by the student.
GRADING AND PENALTIES

Students registered for a one-semester thesis will receive a letter grade and appropriate credit at the end of the semester. Students registered for a two-semester thesis will receive a grade and appropriate credit for the work completed at the end of the first semester as well as a final grade at the end of the second semester. It is each student’s responsibility to find out exactly what the reader wants turned in at the end of the first semester, whether an extensive outline, completed chapters, or chapter proposals. Normally students with two-semester theses will receive a letter grade and credit at the end of the first semester. They may however, with the approval of their thesis reader, receive a grade of P (in progress and without credit) at the end of the first semester. Letter grades and credit replace In Progress (P) grades upon completion of the 2-semester project.

Late theses will be penalized as follows:

<table>
<thead>
<tr>
<th>Submission</th>
<th>Penalty</th>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to 24 hours late</td>
<td>One (1) grade point by Noon Tuesday</td>
<td>From A to A-</td>
</tr>
<tr>
<td>24 to 48 hours late</td>
<td>Two (2) grade points by Noon Wednesday</td>
<td>From A to B+</td>
</tr>
<tr>
<td>48-72 hours late</td>
<td>Three (3) grade points by Noon Thursday</td>
<td>From A to B</td>
</tr>
<tr>
<td>72-96 hours late</td>
<td>Four (4) grade points by Noon Friday</td>
<td>From A to B-</td>
</tr>
</tbody>
</table>

Thesis may not be submitted more than 96 hours late without an approved Incomplete Grade Petition.
