# Performance Improvement Plan (PIP)

- When an employee's overall performance "does not meet expectations," the supervisor and department vice president should contact the Office of Human Resources to discuss and determine appropriate next steps.
- A formal Performance Improvement Plan (PIP) documents that an employee's performance does not meet supervisory requirements or expectations, identifies specific performance gaps and/or behavioral issues, and underscores the need for improvement and corrective action.
- Generally, employees on a PIP are provided 90 days to improve performance.
- Supervisors must maintain active contact with the employee throughout the duration of the PIP and document this.
- **Supervisors are required to consult with the Office of Human Resources before placing any employee on a Performance Improvement Plan.**
