

Massachusetts General Hospital / Harvard Medical School
MGH Community Psychiatry PRIDE
Clinical Research Coordinator Position (Full-Time)

The Community Psychiatry Program for Research in Implementation and Dissemination of Evidence-Based Treatments (Community Psychiatry PRIDE) at the Massachusetts General Hospital (MGH) / Harvard Medical School is accepting applications for a Clinical Research Coordinator position. Community Psychiatry PRIDE is a dissemination and implementation psychiatry research center that focuses on reducing disparities in mental health in the communities across Massachusetts (PI: Luana Marques, PhD). The program's central focus is researching the implementation of evidence-based practices in resource-constricted settings. The overarching mission of Community Psychiatry PRIDE is to bridge the gap between science and practice by bringing evidence-based treatments (EBTs) to communities. Specifically, the program is designed to study the process by which EBTs can be effectively disseminated to community organizations, which in turn leads to increased access and quality of care across a wide range of psychiatric disorders.

The **Clinical Research Coordinator** will be responsible for managing research studies related to the dissemination and implementation of evidence-based treatments in low-income, diverse settings. Responsibilities include:

- Project initiation and maintenance, including outcomes data, binders, and study databases
- Assisting with the coordination of study visits, trainings, and implementation efforts
- Monitoring new research and data and incorporating into scientific manuscripts
- Assistance with focus groups and administration of questionnaires
- Data entry and analysis
- Assistance with writing of results for reporting, presentations, and manuscripts
- Assistance with associated dissemination activities
- Acting as a resource for staff
- Overseeing work of undergraduate research assistants, co-ops, and other volunteers

Qualified applicants must have achieved a B.A or B.S. in Psychology, Public Health, or a related field and should have prior research experience. Applicants must be proficient in Spanish (Level C1 or C2 of The Common European Framework).

The position is available late May/early June, 2015 and is a two-year, full-time position. This position offers valuable education and research experience in preparation for applying to graduate school in public health, clinical psychology, or medical school.

To apply, please send your cover letter, CV, and a copy of your unofficial transcript to **Louise Dixon** at ldixon1@mg.harvard.edu. Applicants are encouraged to submit their application by January 16th. If the position remains available, we will review applications submitted after that date.
